## Flexible Compute — Use It Your Way

**Players Choose Their Power Level**

- **64-core analysis** — Maximum power for critical positions
- **32-core analysis** — Double the hours for the same ducats

**Federation Controls the Allocation**

- Your **national team** preparing for international competition? Allocate more ducats for daily deep analysis
- Your **youth players** building their skills? Give them a larger ducat budget
- **Coaches** running training sessions? Assign ducats based on their workflow needs

## Guaranteed Capacity When It Matters

Major events create compute demand spikes. Youth championships, Olympiad preparation, world championship cycles — everyone needs analysis at the same time.

**With ChessBase:** Your federation has guaranteed capacity. No scrambling for servers. No waiting in queues. Your players get the compute they need, when they need it. Period.

## 40 Years of Trust

ChessBase has served the chess community since 1987. World champions, national federations, and professional players trust us with their most sensitive preparation.

**Your analysis stays private — always.** No monitoring. No logging. No sharing. When your GM discovers a devastating novelty, it remains secret until it hits the board.
